BAND STORY

"

New York born and raised lyric writer and singer. Ofnie started singing at the age of 9 with Church of the Open Door Intermediate Choir and the passion for singing developed. After years of listening artist such as Usher, R. Kelly, Al Green, and Smokey Robinson the original style of Ofnie began to grow into it's own. Along with studying artist music came the appreciation for songwriting and content which encouraged the freedom of expression with words. Ofnie began to write songs studying the styles of Michael Jackson, Mariah Carey, Musiq, Maxwell, Notorious B.I.G. and Joe. The edgy, sensitive, controversial, diverse style of Ofnie makes him a prime contender in the music industry market. Constantly absorbing, growing, learning and changing. The world needs to prepare itself,.. for the arrival of Ofnie UFO Music.
